# How to add a Contact Us form in Magento

Magento includes contact form functionality by default.
A link to a contact form can usually be found in the footer of your Ma
gento installation.

Of course, you can add a contact form on any page. All you need to do
is:

- **Log in to the administrator area.**
- **Go to CMS > Pages.**
- **Select the page you want to edit or create a new page.**

Paste the following code using the HTML option of the WYSIWYG editor:

```
<!– CONTACT FORM CODE BEGIN–>

{{block type='core/template' name='contactForm' template='contacts/for
m.phtml'}}

<!– CONTACT FORM CODE END–>
```

Save the changes and the contact form will appear on the desired page.
